

New Faces for a New Year

Hot on the heels of the design successes of recent years, leading UK carpet tile manufacturer, Burmatex, has made two new additions to its in-house design team, as the company gears up for some exciting product innovations for 2011.

Vivien Lee, previously London Design Manager for Milliken Industrials, joins Burmatex as Senior Designer. Vivien brings with her a wealth of experience working with architects, interior designers and end users.

Julia Thomas will work alongside Vivien as the new Junior Designer of the team, having recently completed a degree at Huddersfield University in Surface Design for Fashion and Interiors.

With several exciting new projects already underway, it promises to be another busy year for the Burmatex design team.
